

A solution for
every stage of
your business

myob

Our solutions are purpose built to let you spend less time worrying about the accounts, GST and payroll.

That's why we create solutions that can help:

- + Better manage your finances, including cash flow
- + Simplify and automate tedious and time consuming data entry processes
- + Stay tax compliant with automatic software updates
- + Provide the most up-to-date financial analysis with access to dedicated reporting tools
- + Support the growth of your business at every stage.

Our Solutions

MYOB Essentials

Online accounting made easy. Most popular with new and smaller businesses.

MYOB AccountRight

Ideal for desktop users wanting to move online or needing a more customised solution.

MYOB Essentials Connected Ledger

Let your advisor manage your monthly bookwork with MYOB Essentials Connected Ledger.

MYOB Essentials Connected Ledger virtually eliminates manual data entry and takes away the pain of doing your GST and year end accounts.

Your bank transactions are securely sent direct to your advisor, so you don't need to worry about sending receipts, bank statements or other paperwork.

Easy communication

Using MYOB Essentials Connected Ledger you can login and view your accounts and reports easily at any time.

MYOB Essentials Connected Ledger includes:

- + MYOB BankFeeds – The best bank feeds. Your data is safely sent to your advisor when you link your bank accounts to your software.
- + Easy collaboration with your advisor. Work online together with real-time data to ensure your business is set up for success.
- + Simple comparative profit and loss reporting and budgeting. You and your advisor can easily see how your business is running compared to budget with easy to read reports and graphs.
- + If your business requirements change, simply upgrade to any of the MYOB Essentials Accounting products.

Online accounting made easy.
Most popular with new and
smaller businesses.

MYOB Essentials is easy, 100% online accounting software accessed through a web browser. It's ideal if you want hands-on access to your accounts, but prefer to keep it quick and easy so you can get on with running your business.

Share your file with your advisor or others in your business, and have transaction data from your bank delivered directly into your MYOB Essentials file.

Know how your business is doing in real time

MYOB Essentials Accounting gives you a daily snapshot of how much money you have in the bank, your expenses, who owes you money and how much GST you need to pay.

Get help when you need it

Sharing your file with your advisor means they see exactly what you see. So if you need some help with your books, they can give you advice on the spot.

Save time and effort

Have your bank transactions delivered into your MYOB Essentials file with accurate, secure bank feeds. Automatic matching rules can then be set for your most popular transactions, such as fuel purchases, so they code themselves.

Take the stress out of staying compliant

MYOB Essentials records all the data your accountant or bookkeeper needs to help you meet your reporting requirements for GST and other levies and rebates. Secure online storage of your file also helps protect your records against damage or loss.

MYOB Essentials grows with your business

The MYOB Essentials range of accounting software can grow with your business, unlocking features like invoicing and payroll as you need them.

- + **MYOB Essentials Accounting Starter** – Includes 5 invoices, 5 bills, reconcile 25 transactions with MYOB BankFeeds and payroll for one.
- + **MYOB Essentials Accounting** – Includes unlimited invoices, unlimited bills, MYOB BankFeeds[#] and payroll for one.
- + **MYOB Essentials Accounting with Payroll** – Includes unlimited invoices, unlimited bills, MYOB BankFeeds[#] and unlimited payroll.

[#] Reconcile up to 250 transactions per month. Additional transactions 0.10c each. Subject to Fair Use Policy.

MYOB AccountRight is seriously flexible, and designed for businesses who want more. More features. More capability. More power.

Adding an AccountRight subscription service delivers the convenience of working online without compromise. In addition to online and offline use, an AccountRight subscription provides automatic software updates and a range of support services.

For example, AccountRight saves you time on data entry and bank reconciliations by automatically matching transactions and saving them directly to your AccountRight file.

Multi-user access means your advisor or others in your business can share business information in real-time even if they are in different locations.

You have the flexibility and convenience of being able to invoice on-the-go with our smartphone app, and peace of mind knowing you will always have access to your data offline, and can run a back-up at any point in time.

Build your business

Make better decisions with real time access to your business information anywhere, anytime.

Enjoy better productivity and improved internal processes with multi-user access.

Transform your relationship with your advisor by giving them direct access to your figures.

Save hours every month

Dramatically reduce data entry by having bank transactions delivered directly into your AccountRight company file. Automatically code regular transactions, such as fuel or lease payments, using rules.

Unrivalled peace of mind

Rest easy, knowing that the most current version of your data is saved securely online. MYOB support is just a phone call, email or LiveChat away – seven days a week, from early to late.

An easy path to the cloud

Already using AccountRight? You can easily move your existing company file online. There's no need to convert data or learn a new system.

Ideal for desktop users wanting to move online or needing a more customised solution.

5 reasons to choose MYOB

- 1 The best fit**

We have a solution for every business imaginable. This includes software that works on all major platforms, from Windows to Mac and both desktop and online accounting solutions.
- 2 In safe hands**

The most accurate, reliable and secure bank feeds available from the widest range of financial institutions and suppliers – so you spend less time on data entry.
- 3 Here for you**

As well as online and phone support, we have a nationwide network of Partners ready to help maximise your investment in MYOB solutions.
- 4 Always helpful**

We've worked alongside the business sector for more than 20 years, through every change to business rules including GST and payroll.
- 5 Future proof**

MYOB currently invests over \$40M annually in innovation and product development to ensure our products keep pace with a changing world.
